Inhaltsverzeichnis

Unter **System > Stammdatenimport > NUTS-Codes Import** können Sie NUTS-Codes in ICRS importieren.

The screenshot shows the metamagix ICRS web interface. At the top, there is a navigation menu with categories: Topographie, Zinslisten, Reporting, Weitere Module, Aufgaben, System, ICRS (highlighted in red), and History. The ICRS menu item is labeled 'Immobilien Controlling und Reporting System' and has a 'LOGOUT' button below it. The History menu lists various import functions like 'NUTS-Codes Import', 'Hausdaten Basisimport', etc.

The main content area displays the 'NUTSCode-Liste' menu. On the left, there is a sidebar with a tree view of company folders. The main area shows a table with the following data:

Name	File	okrecords	errorrecords
	download	0	0
	download	1779	0
Test 2 2010 Q3	download	3561	0
Test 2010Q3	download	3561	0

At the bottom of the table, there is a search bar with the text 'Schnellsuche nach Name', a 'Suchen' button, a dropdown menu showing '25', and navigation controls for 'Seite 1 von 1' and 'Zeige 1 - 4 (4)'.

The footer of the page contains the text: 'metamagix Software & Consulting GmbH', 'Hochringgasse 27, 1150 Wien, Telefon: +43 1 8902 604, office@metamagix.net', and the 'metamagix' logo.

NUTS-Codes import
