Update GIS Information	3
------------------------------	---

Update GIS Information

With this menu *System > Master Data > Update GIS Information* you can hold your maps and geographic coordinates of the objects up to date.

Update GIS Infos

Force Update

Object

Continue

Form to update GIS information for each property

You can enforce the update of your maps and geographic coordinates.

As the case may be you can select a single object and start with the button: *Continue* the update. When the process finishes you get a notification on the screen or an e-mail if appropriate configured. In the meantime you are able to continue your work in ICRS:

Yet you have another question leave it on this site for the metamagix-support-team.
