Assetmanager Import	3
---------------------------	---

Assetmanager Import

In the menu *System > Master Data Import > Assetmanager Import* you can import asset managers in ICRS from external resources.

Table of asset manager import

Click on the button: *Asset Manager Import* and you get a form named *Uploaddescription*. There you can select the names of the columns for the desired table.

Form to configure an uploaddescription.

And here an example of an existing uploaddescription:

Example of an existing uploaddescription.

If you want to abort the process of importing asset managers click on the *Back*-button.

Yet you have another question leave it on this site for the metamagix-support-team.
