Open Imports

The form: *Open Imports* lists the objects, which conforms the query limitations and have lease date in the chosen month.

Open imports

This List provides the objects, which conforms the limitations but not have lease data for the desired month.

- *Country: choose the country in which the desired object lies.*
- *Business Segment: multiple select field to limit business areas to which the object belongs.*
- *Company: limits the company to which the object belongs.*
- *State of the Object: limits of the status in the sought object.*
- *State of the Unit; limits of the status of the unit in the sought object.*

- *Month: DropDown List in which you define in which month the existence of Leaselists will be proved.*
- *Year: select in this drop down list for which year the occurring of lease data will be proofed.*

With the button: *Show* you can list the objects that conforms the limitations but don't have lease data of the selected month.

The button: *Reset* set the limitation field on default.

Yet you have another question leave it on this site for the metamagix-support-team.
