Real Export Factsheet ..... 3

## **Real Export Factsheet**

In the menu *Analytics > Standard > Real Exact Factsheet* you can view the fluctuation of all bought and sold objects in desired period and with query filtered limitations.

Real estate factsheet

With the button: *Query* you get a result in table style. It is advisable to choose the option: Export in the background when you have long reports, complex calculations or when your system uses a VPN or goes through a firewall.

With the button: *Query* you start the report, during this you can see on the top right of your screen a message that the engine works on the report. Additionally you can choose the option: *Notification with E-Mail* (if not you just see on the top right a small popup, with the announcement of the generating report. In this case you have to configure in an E-Mail address. For security reasons the compiled tables will remain for by default one month in the system.

With the button: *Back* you get a form which you need to limit query-filters or reset the fields on a default value.
